## **F. Selection Process and Notification**

1. Results of selection of applicants for Year 2017 shall be notified in late September. The selection is conducted by a fellowship sub-committee established within CNARC and made up of frontline Arctic experts from China and Nordic states. The selection is carried out through a document review described as below:

Document reviews for each application are conducted individually by members of CNARC's fellowship sub-committee.

In the document review, a graduated scoring system is used on a scale 1 to 5, with 5(superlative), 4(excellent), 3(good), 2(fair) and 1(poor).

Marks are made on a comprehensive basis, taking into account research achievements, the research plan, estimated research capacities and feasibility of the research. The average score in the document review is used as the primary screening criterion in the panel review.

2. Notification of the selection results will be made in writing through the Secretariat of CNARC. Acceptance documents will be sent to the successful candidates. The names of the awardees, host institutes as well as their research themes are subject to public disclosure on CNARC's website. Unsuccessful candidates are not directly notified of their selection results.
